Healthy Skin.
Positive Outcomes.

This is our quest. Keeping peristomal skin healthy. The way it was meant to be.

Hollister Ostomy Care is dedicated to delivering products that provide an optimum fit to prevent leakage, along with the best skin interface formulations to protect and maintain healthy skin.

We believe every unique person with a stoma deserves a customised solution, and the positive outcomes that can result. Our products and services are designed to do just that.

Thank you for partnering with us on our journey.

Maintaining the Right Environment

Makes all the Difference

Introducing the CeraPlus™ skin barrier with Remois technology*

At Hollister, we realise the importance of healthy peristomal skin. Our newest skin barrier is infused with ceramide, the skin's naturally occurring protection against dryness. The CeraPlus skin barrier is designed to maintain adhesive properties, and features a proprietary formulation designed to help protect the skin's own moisture barrier.

The CeraPlus skin barrier from Hollister—because doesn't everyone deserve healthy peristomal skin from the start?

*Remois is a technology of Alcare Co., Ltd.

Latest Advances From Hollister

Hollister takes pride in constant innovation. Our comprehensive product range is regularly added to with new and exciting products and product innovations.

Ceramide infused product (CeraPlus) **NEW**

The CeraPlus skin barrier is designed to maintain adhesive properties, and features a formulation to help:

- Protect the skin's natural moisture barrier
- Maintain good peristomal skin health
- Decrease transepidermal water loss (TEWL).

NOW available in one and two piece ranges.

Viewing Option window **NEW**

- The viewing option is utilised by breaking the perforated seal
- Stoma and output can be observed clearly and privately
- Helps patients position the pouch more easily
- Curved seal retains its shape, even after the perforation is separated, and helps prevent water from collecting during bathing or showering.

Improved Lock 'n Roll Microseal Closure **NEW**

- Flexible ribbed strips to help facilitate ease of opening, draining, cleaning, and closing
- Transparent flap to help provide increased security and protect closure from accidentally being pulled open.

Updated Skin Barrier Design **NEW**

- New flexible plastic release liner covers both the skin barrier and the adhesive border to help provide improved ease-of-use
- Barrier edges are tapered to help provide increased user comfort
- Steps to apply the skin barrier remain the same.

Moderma Flex

One Piece Pouches

**A combination of the right fit
and formulation is the key to
positive outcomes**

[Contents](#)

[Code Index](#)

Moderma Flex Pouching Systems

The Moderma Flex range of One Piece pouches is flexible, discreet, and available to suit most stoma types.

Designed for ease of use, comfort and security against leakage without compromising wear time.

Available in clear, beige or with viewing options, pre-cut or cut-to-fit, flat or convex.

Closed Pouches

- Unique dimpled barrier with Softflex formula for flexibility and gentle removal
- Featuring the AF300 filter to help prevent ballooning
- The addition of the CeraPlus skin barrier to enhance skin health

Drainable Pouches

- Available in the SoftFlex, FlexWear and CeraPlus skin barriers with/without adhesive tape border.
- The Lock 'n Roll microseal closure offers wearers security, discretion, confidence, and comfort
- Featuring the AF300 filter to help prevent ballooning

Urostomy Pouches

- The unique drainage valve on this drainable pouch helps to ensure wearers have a secure and easy-to-use system
- Available in the SoftFlex and Flexextend skin barriers with/without adhesive tape border

Choice of skin barriers

- **SoftFlex** skin barrier for gentle skin protection
- **FlexWear** skin barrier for strength and flexibility
- **Flexextend** skin barrier for enhanced protection against liquids and extended wear time due to the unique fluid handling properties.
- **CeraPlus** skin barrier is infused with ceramide, the skin's naturally occurring protection against dryness

The discretion of beige, and the confidence of clear—all in one pouch.

The viewing option is utilised by breaking the perforated seal.

When the flap is lifted, the stoma and output can be observed clearly and privately.

The curved seal helps prevent water from collecting during bathing or showering.

Due to low demand and the introduction of newer more advanced like products with enhanced features, we will be working towards removing these from the SAS schedule.

Existing users will be transitioned to the new equivalent improved products over the next six months. We look forward to your support as we progress this process.

Below you will find the current SKUs with a suggested 'like' replacement SKU in parentheses after each older SKU. The suggested replacement SKU is as close a match as possible.

Two Piece Pouching System

Two Piece

Keeping peristomal skin healthy
is the inspiration for all we do

[Contents](#)

[Code Index](#)

The CeraPlus Skin Barrier with Remois Technology*

The importance of peristomal skin health in ostomy care can't be overstated. The condition of this skin greatly affects how well the skin barrier can adhere, as well as the general comfort and well-being of a patient living with a stoma.

The Ceramide Advantage

Ceramide is a natural component of human skin, consisting of waxy lipid molecules. Ceramide links cells of the outer skin (epidermis) together to form a waterproof, protective barrier. Ceramides help prevent water loss that can lead to skin damage and dryness.

The CeraPlus Skin Barrier is Designed to Support Healthy Skin From the Start

The CeraPlus skin barrier pairs with the Hollister New Image pouching system. It's designed to support healthy skin from the start. It features a formulation infused with ceramide to help:

- Protect the skin's natural moisture barrier
- Maintain good peristomal skin health
- Decrease transepidermal water loss (TEWL).

* Remois is a technology of Alcare Co., Ltd.

Colour Matching System

To help you select compatible New Image components, every box label is colour-coded. First, select the proper skin barrier; then select a matching colour-coded pouch (e.g. "red" skin barrier box label is compatible to "red" pouch box label).

The following Tandem products have served you and your patients well over the years. Due to low demand and the introduction of newer more advanced like products with enhanced features, we will be working towards removing these from the SAS schedule.

We look to you for support during this transition phase.

We have suggested the most appropriate like replacement SKU below but understand that we may not be able to meet all the needs of the small number of current Tandem users.

Hollister Resources

Please visit **www.hollister.com.au** for access to a range of nurse and patient resources. These include videos covering the well known Hollister Managing Your Series - colostomy, ileostomy, urostomy and loop ileostomy.

In addition there are a range of intermittent catheterisation and related continence care videos. New patient specific videos are now also available.

You will also find specific nurse education programs covering ostomy and urostomy areas.

A range of case study publications.

You can view/download a video on the following topics:

Managing Your Colostomy

www.vimeo.com/hollisteranz/colostomy

Managing Your Ileostomy

www.vimeo.com/hollisteranz/ileostomy

Managing Your Urostomy

www.vimeo.com/hollisteranz/Urostomy

Contact your local Hollister Account Manager for a copy or download from www.hollister.com.au

Liberty Medical currently provides Ostomy Associations with free into store delivery and is paying a premium freight delivery service to provide many Associations with overnight delivery. The cost of freight has increased substantially over recent years while returns from the Stoma Appliance Scheme have declined; Liberty Medical can no longer afford to absorb the additional costs.

Expected Delivery time-frames into Associations

- Up to 2 business days : Metro - VIC/ NSW/ ACT/SA
- Up to 3 business days: QLD, SEQ and Victorian regional areas
- Up to 5 business days: WA / TAS / Regional Qld including FNQ

The 2 business day timeframe for Metro VIC/ NSW / ACT/ SA is based on industry standard regardless of warehouse location. It is likely the Associations based in close proximity to Liberty Medical's warehouses should receive their orders before this with a standard delivery service.

If an Association requires an overnight delivery service this will be available; however the additional premium freight service will be passed onto the Association. A quotation for an overnight delivery service will be provided upon receipt of phone call from the Association into Liberty Customer Service prior to dispatch.

All orders to be received by Liberty Medical before 1pm EST to allow for the above delivery time frames.

***Minimum Ordering**

Liberty Medical reserves the rights to request a minimum order value of \$300 per order. All orders less than \$300 will attract a standard freight charge of \$27.50 + GST.

*Excludes all clauses stated under patient deliveries.

Written purchase order for all orders

- Liberty Medical will only accept written orders, either via fax or email. Phone orders will not be accepted.
- Liberty Medical to provide order confirmation.
- All orders to be received by Liberty Medical before 1pm EST to allow for same day processing.

Limit of 10 FIS (free into store) orders per month for Association

- Currently a significant number of Associations are placing daily orders. The cost of placing an unlimited number of orders per month is borne by Liberty Medical and this is not sustainable for the company. It is of primary importance that orders are consolidated to reduce the growing costs of freight, handling and administration.
- If an Association places more than 10 orders per month the additional orders will be billed at full shipping and handling cost. Associations will be advised when nearing 10 orders for the current month.

Please note the 10 Free into Store orders per month excludes new patients and new users of Liberty Medical products. If there are extenuating circumstances this needs to be negotiated on a case by case basis.

Patient deliveries

(a) Association Delivery

- New Patient orders to be delivered by standard freight to the Associations at agreed delivery time-frames without any additional charge.
- If the order is required overnight the Association will be charged the additional premium freight service. A maximum of 1 month's supply can be ordered. A quotation will be provided upon receipt of phone call from the Association into Liberty Customer Service prior to dispatch.

(b) Direct to Patient (should be the exception)

- When a Direct to Patient delivery is required by either standard freight or overnight, Liberty Medical will charge the Association the additional premium fee. A maximum of 1 month's supply can be ordered. A quotation will be provided upon receipt of phone call from the Association into Liberty Customer Service prior to dispatch.

(c) Direct to New Patient (for new product listed on Stoma Appliance Scheme)*

- Liberty Medical will waive the direct to new patient delivery fee where the new patient is ordering products which are newly listed on the Stoma Appliance Scheme. New products are defined as those listed on the scheme within the last 6 months. A maximum of 1 month's supply can be ordered.

Liberty Medical appreciates the importance of new patients receiving their orders as quickly as possible and these orders will be given high priority.

Please note the new patient deliveries are excluded from the 10 Free into Store orders per month.

Change in Prices

Liberty Medical endeavours to advise the trade of fluctuations in prices of products and/or freight.

Where possible Liberty Medical will endeavour to provide notice to these fluctuations.

Payment

Accounts are to be settled within 30 days from the date of Invoice.

Revision of Terms of Payment

If Liberty Medical at any time considers that conditions do not warrant delivery of the goods on the terms of payment stated herein, Liberty Medical reserves the right to change the term of payment and/or require payment as a prerequisite of delivery and will notify the customer accordingly.

Handling

Liberty Medical will select the mode and rate for transport of goods for standard orders. When special handling/order is requested the Association will be charged the additional premium freight service, the cost of the special service will be added to the invoice. A quotation will be provided upon receipt of phone call from the Association into Liberty Customer Service prior to dispatch.

Orders

All orders are subject to acceptance of Liberty Medical's Conditions of Sale. Liberty Medical shall not be liable for any failure to perform the contract of supply of any materials or for any delay or non-delivery due to strikes, fires, explosions, flood, riot, lock outs, injunction, interruption of transportation, accidents, inability to obtain supplies at reasonable prices, war or apprehension of war, force majeure, government action, or any other circumstances beyond Liberty Medical's control.

Return of Goods

Liberty Medical will accept returns of certain merchandise from the customer under the following conditions:

1. All returns must be arranged through Liberty Medical Customer Service Department at which time an RGA number will be provided. Goods sent without approval will not be accepted and will be re-directed back without issue of credit, at sender's expense.
2. Returns must be made within 14 days from the invoice date. Goods received after 14 days will not be issued with a credit.
3. Only full boxes of merchandise will be accepted for credit.
4. Goods accepted for credit where there has been no fault on the part of Liberty Medical, will be charged a restocking fee by adjustment of credit issued as follows: \$25.00 or 25% of value of goods returned, whichever is higher.
5. Any returned stock received damaged will not be accepted and be re-directed back without issue of credit, at sender's expense.
6. Freight for goods returned due to purchaser error will be at the expense of the purchaser and subject to all the above clauses. The purchaser must organise their own freight back to Liberty Medical warehouses
7. Where "extenuating" circumstances are out of the control of the Association, the Association must notify Liberty Medical in writing. Hollister and Dansac Sales Managers at Liberty Medical will review each case on its merits to determine if waiving of any fees is to apply.

*Liberty Medical will endeavour to complete all credits within 14 days of lodgement with Customer Service.

Non-Returnable Merchandise

1. Sterile Products (except as a result of Supplier shipping error), or by arrangement.
2. Discontinued items.

Product Liability

The product liability of Liberty Medical in relation to any occurrence shall never exceed the limit of Liberty Medical's current product liability insurance.

Property

- (a) Property of the goods shall remain with the Seller and the Seller has clear title to the goods until such time as:
 - (i) Full payment is made for all amounts owing by the Purchaser to the Seller so that the Purchaser's total indebtedness to the Seller under these Conditions of Sale is discharged; or
 - (ii) The Purchaser sells the goods to his customers in the ordinary course of their business.
- (b) If the Purchaser fails to pay any amount of the Purchaser's indebtedness to the Seller under these Conditions of Sale when it is due to the Seller or, an event of default as specified in subsection (d) hereof occurs the Seller may withhold notice and without prejudice to any of its other rights and remedies recover and/or resell the goods or any of them and may enter upon the Purchaser's premises by its servants or agents for that purpose.
- (c) Until full payment the Purchaser shall store the goods in a way that clearly manifests the Seller's title.
- (d) Notwithstanding the provisions of these Conditions of Sale payment shall become due immediately upon the Purchaser committing any act of bankruptcy or the Purchaser (being a company) committing any act which entitles any person to apply to wind up the Purchaser, or a Receiver or Receiver and Manager of the Purchaser is appointed.
- (e) The Purchaser acknowledges that until his total indebtedness under these Conditions of Sale to the Seller is discharged he holds the good as bailee of the Seller and that a fiduciary relationship exists between them.
- (f) In the event of sale of goods to his customers the Purchaser in his position as fiduciary shall:
 - (i) Assign to the Seller the benefit of any claim against a customer, and
 - (ii) Account fully to the Seller for the proceeds of the sale (unless and until the Purchaser's total indebtedness to the Seller under these Conditions of Sale is discharged).

Limitation of Liability

Liberty Medical's liability for any claim whatsoever in respect of products sold hereunder shall not in any case exceed the price of the product in respect to which the claim is made and customer assumes all risks and liability for the products purchased from Liberty Medical and their use upon and after delivery including their effect upon any person.

Any and all warranties or conditions express, implied or statutory are excluded except those which cannot be lawfully excluded.
